1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 through 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2 through 9 fail to clearly recite a step in the claimed method. These claims recite structure of the apparatus for performing the method. Accordingly, it is not understood what steps of the method these claims are intended to encompass.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 through 20 are rejected under 35 U.S.C. 102(b) as being anticipated by Teraoka (European 0 056 638 A1, cited by applicant).

See Figures 1-3 and page 9 line 13 through page 12 line 21.
